

Kicked Off October 14th: 3 Beers, 2 Solution Sessions, 1 strong NetApp message

90 min multi-customer solution briefing

SOLUTION TOPICS

1. Data Protection & Cyber Security
2. Automation with Ansible
3. Plug for INSIGHT & wrap up

BEER DEMO

1st Beer in Flight with expert from Quantum Network

2nd Beer in Flight with hosts explaining NS

3rd Beer in Flight with discussion on Security

Buyer Enablement

Beer-Fueled Virtual Briefings

Pandemic Pivot: Virtual EBCs That Added \$2M in Pipeline

The Situation: NetApp had planned a national event series built around a custom-brewed beer, with live tastings at sites across the company. COVID ended that before it started.

The Complication: Instead of canceling, we redesigned the format around a [clever beer explainer video](#) I'd seen years before. We landed on a 90-minute virtual briefing where attendees received a craft beer flight kit in advance. Each beer was tied to a solution topic, and a brew master walked the audience through the pour while our team walked them through the product. The format gave people a reason to stay engaged for the full session.

The Result The pilot pulled 106 attendees, generated 35+ opportunities, and added \$2M in pipeline. It proved that a constrained budget and a creative format can outperform a well-funded event that never happened.

Solution Briefings On Tap

Virtual Solutions Briefing Program

VERSION : Pilot Results
DATE : January 2022

WHY The EBC On Tap Campaign

FROM

Live events with NetApp Beverages

Reassure Customers

“Go Big On Core” messaging

US Only

Digitally Driven

TO

Virtual briefings with NetApp Branding

Solve Customer Problems

Hybrid Cloud messaging

Multiple Geos Phased in Over Time

Digitally Promoted & Sales Activated

BECAUSE

In following guidance from Safety and Security as a result of the Covid resurgence, our plan needed to change. In response, the team developed a stall-proof plan to both realize the original December 2020 goals of the program while addressing the current needs of NetApp’s business.

The new EBC On Tap Campaign can be enacted in weeks, convince existing and new customers of NetApp’s commitment to innovation and align sales and marketing organizations to drive revenue for NetApp in Q2 and beyond.

Kicked Off October 14th: 3 Beers, 2 Solution Sessions, 1 strong NetApp message

90 min multi-customer solution briefing

SOLUTION TOPICS

1. Data Protection & Cyber Security

NetApp

2. Automation with Ansible

NetApp

Infrastructure Automation
The Power of NetApp & Ansible

Why Ansible for Infrastructure Automation?

Accelerate: automate complex tasks with little effort and leverage time for other tasks

Reliable & Powerful: consistent state for every workload

Open-Source: no vendor lock-in, infrastructure-vendor-agnostic

Minimal learning required: Playbooks use an easy, descriptive language and familiar tools

3. Plug for INSIGHT & wrap up

ONTAP Solution Series: Oct 14

AGENDA	
3:00 – 3:30PM	Welcome, Sierra Nevada Intro & Beer Tasting #1 Amy Ebling, Tour Supervisor - Sierra Nevada
3:30 – 4:15PM	Data Protection & Ransomware Jason Kessler, Solutions Architect
4:15 – 4:30PM	Session 2: Tasting #2
4:30 – 5:15PM	Automation with Ansible Jason Kessler, Solutions Architect
5:15 – 5:30PM	Session 3: Tasting #3 & Close

START

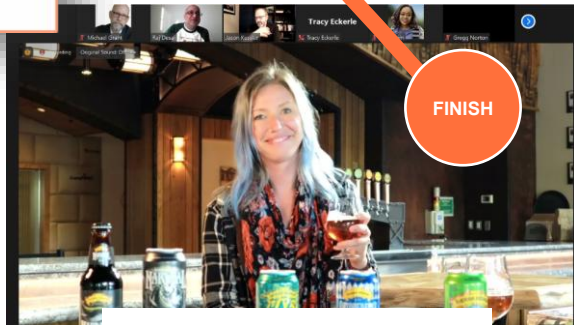

BEER DEMO

1st Beer in Flight
with expert from
Sierra Nevada

2nd Beer in Flight
with hops sampling kit

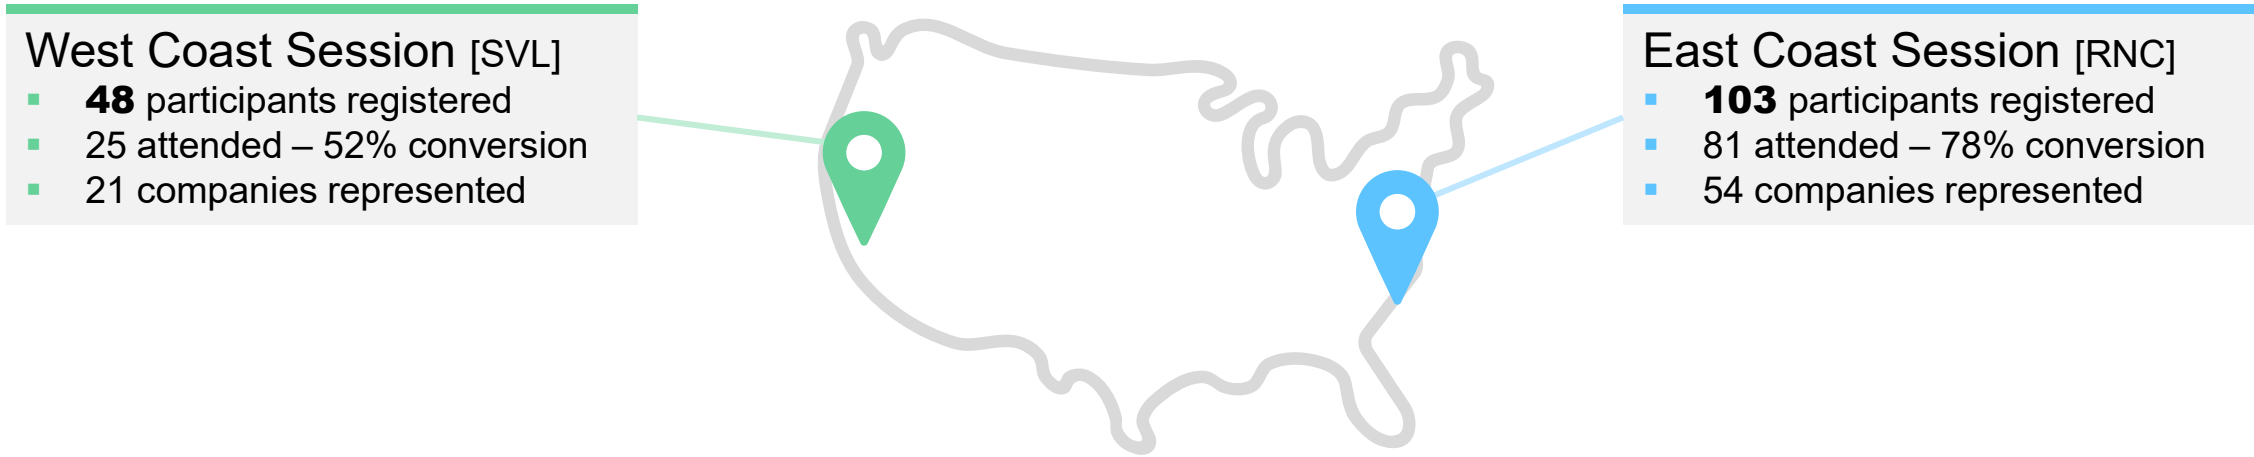

3rd Beer in Flight
with discussion on brewing

FINISH

Pilot Results: 151 registered, 106 attendees, 35+ opportunities

Full Registration List [HERE](#)

Results: 35+ possible opportunities with **12** with opportunities in pipe

Pilot Details By Date

PILOT #1 – OCT 2021	East Coast	West Coast	TOTALS
Customers Registered	72	22	94
Customers Attended	59	11	70
Conversion %	82%	50%	74%
# Companies	34	8	42

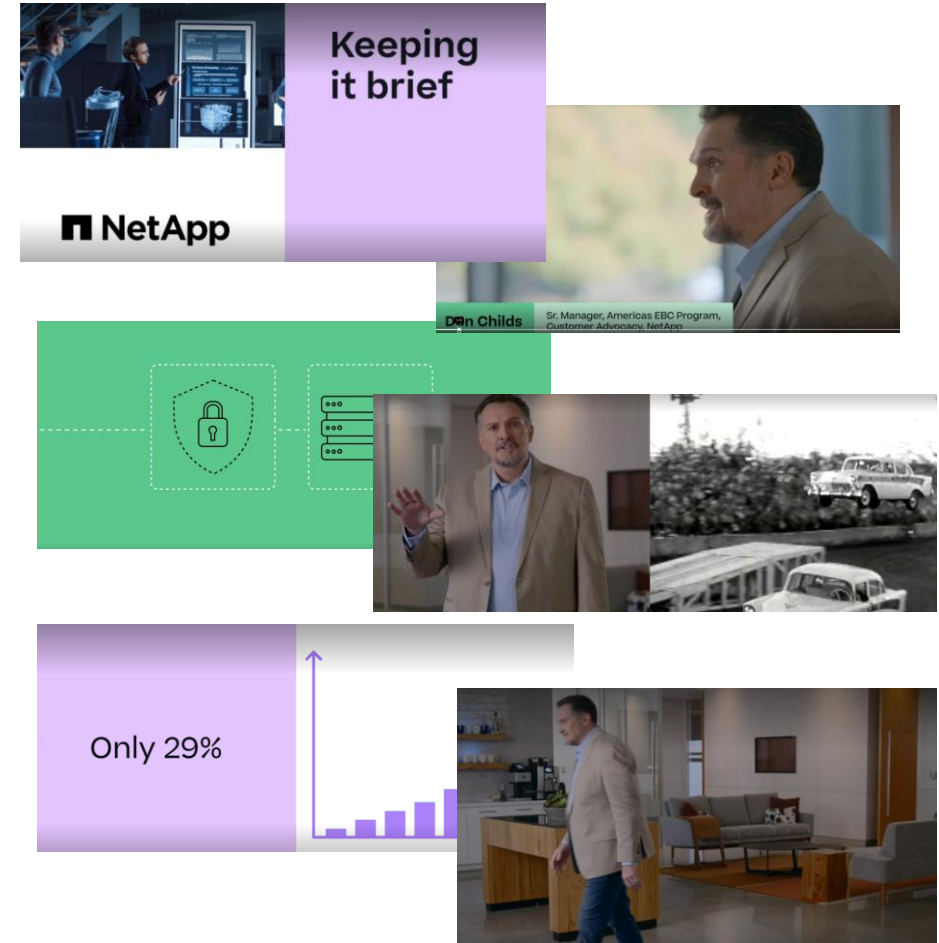

PILOT #2 – JAN 2022	East Coast	West Coast	TOTALS
Customers Registered	31	26	57
Customers Attended	22	15	37
Conversion %	71%	58%	64%
# Companies	20	13	33

Promotional Videos in the Can

Used untapped LinkedIn credits to develop five promotional videos – ***at no cost to NetApp*** - on sales-identified solution topics. All videos hosted by Don Childs, Manager EBC. Intent is to post these videos on NetApp.com to drive registration at the Awareness phase.

CONCEPT AND EXECUTION DETAILS

EBC ONTAP Roadmap: 5 sessions & 200 Buyers by December 2021

ENGAGEMENT BY PHASE

- Phase 1:** Targeting accounts with deals in the pipeline. Invitations made by NetApp sellers
- Phase 2:** Engaged prospects in the US that choose to register on-line
- Phase 3:** [TBD] Scale program to EBCs outside US

Get Your Data ONTAP - Revised Activations

Recommendation

Recommended Activation Plan

1. Lean heavily into Influencer activations as our proof point that we made beer and coffee
2. Adjust the landing page experience to be honest on the reality of COVID, and integrate a story about needing to put the liquids in storage and who better to tell that story than NetApp?
3. Adjust CTA on LP driving customers to register for EBC Virtual Solution Series (further details on next page)
 1. Outfit EBCs with ONTAP beer and coffee installations
 2. When permitting, install ONTAP liquids at EBCs

Get Your Data ONTAP - Revised Activations

Recommendation

PROS

- Delivers on the business challenge
- Gets our messaging in market ASAP
- Sales still able to make a connection
- Current media plan is not hinged to events
- We've already invested in assets
- We can spin a fun 'storage' story

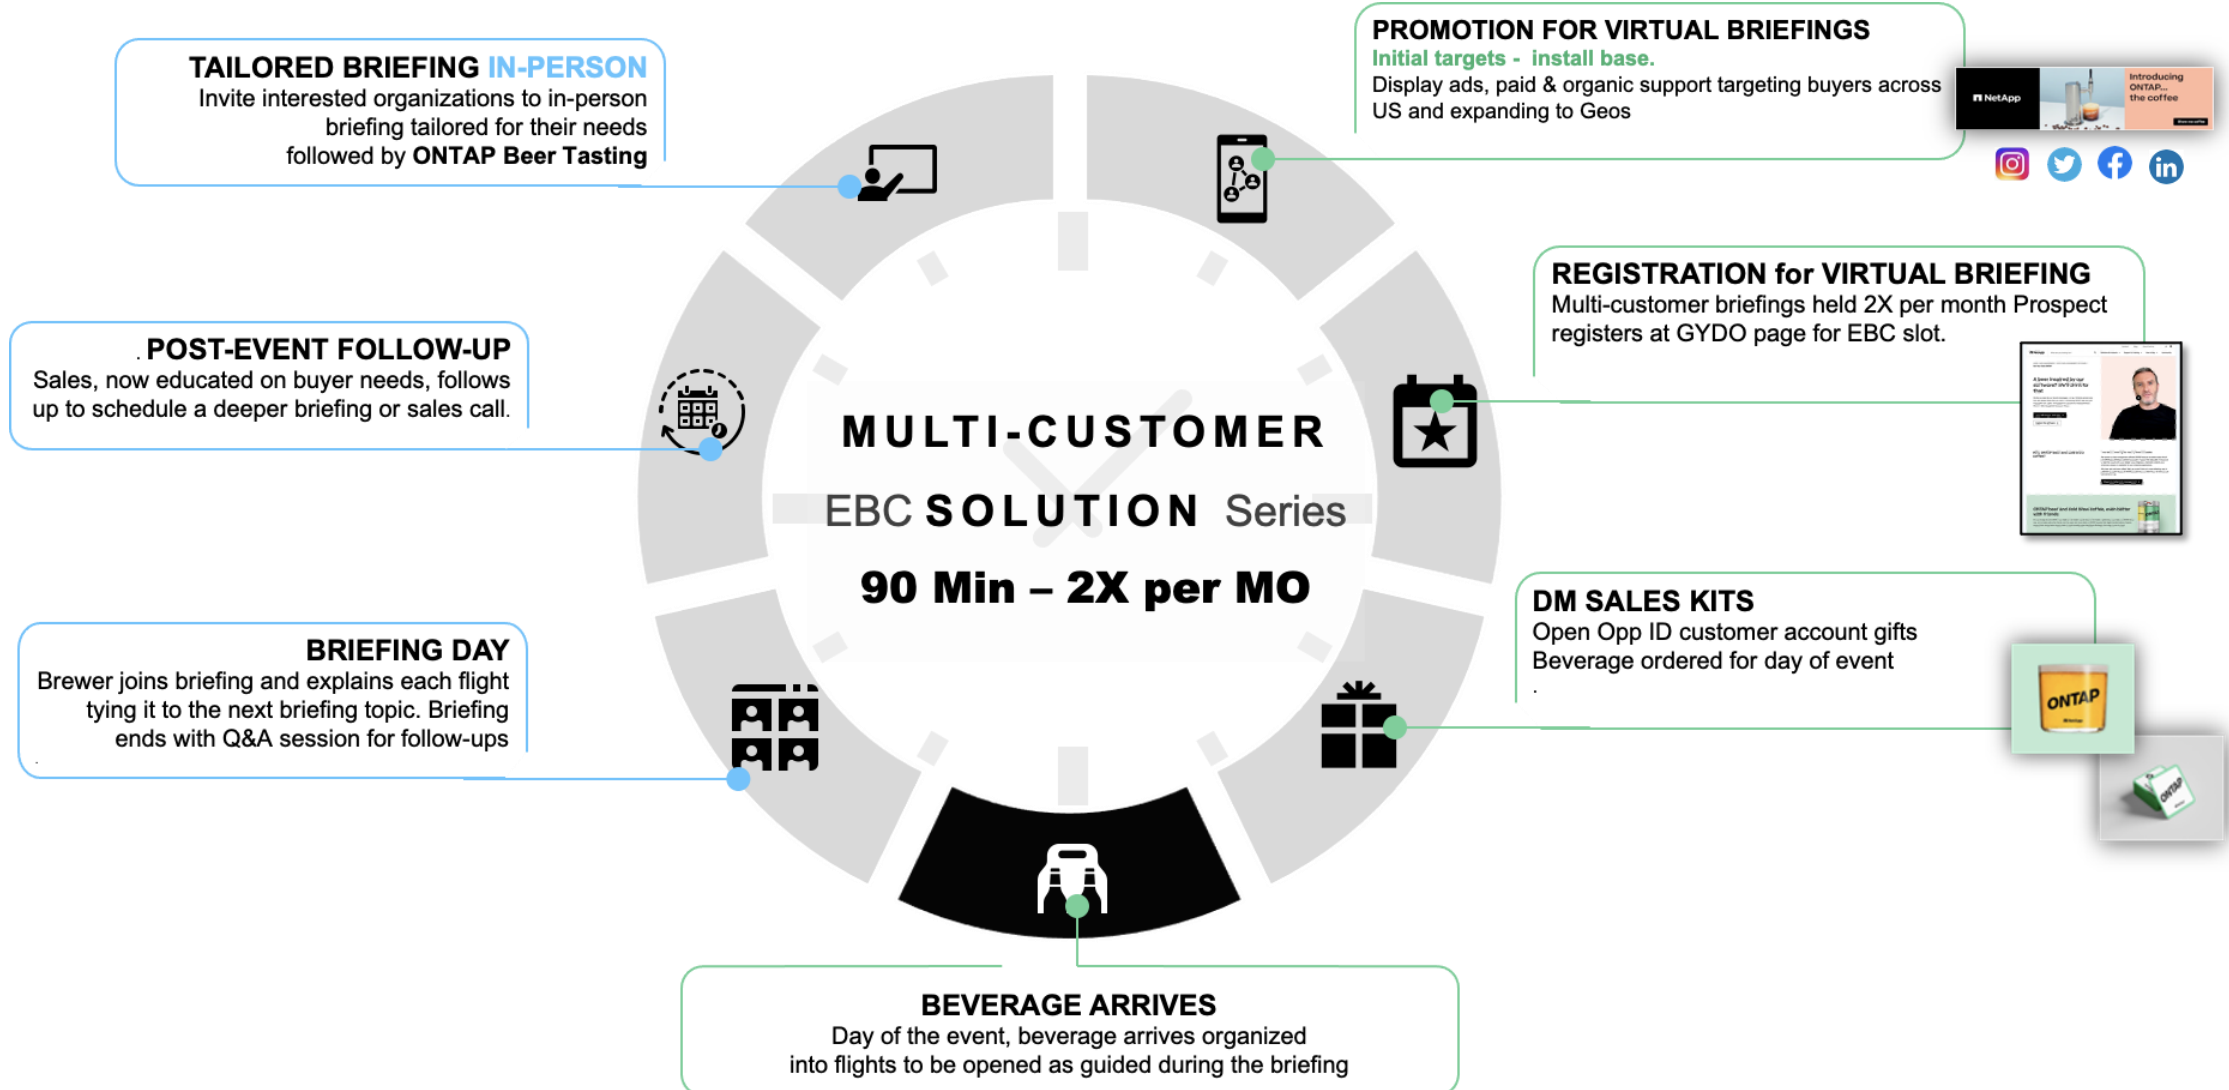

CONS

- Introducing our liquids without putting in customers hands immediately
- Unknown timing for covid restrictions
- Cost and timing implications with revised comms and/or potential assets

EBC Virtual Solution Series

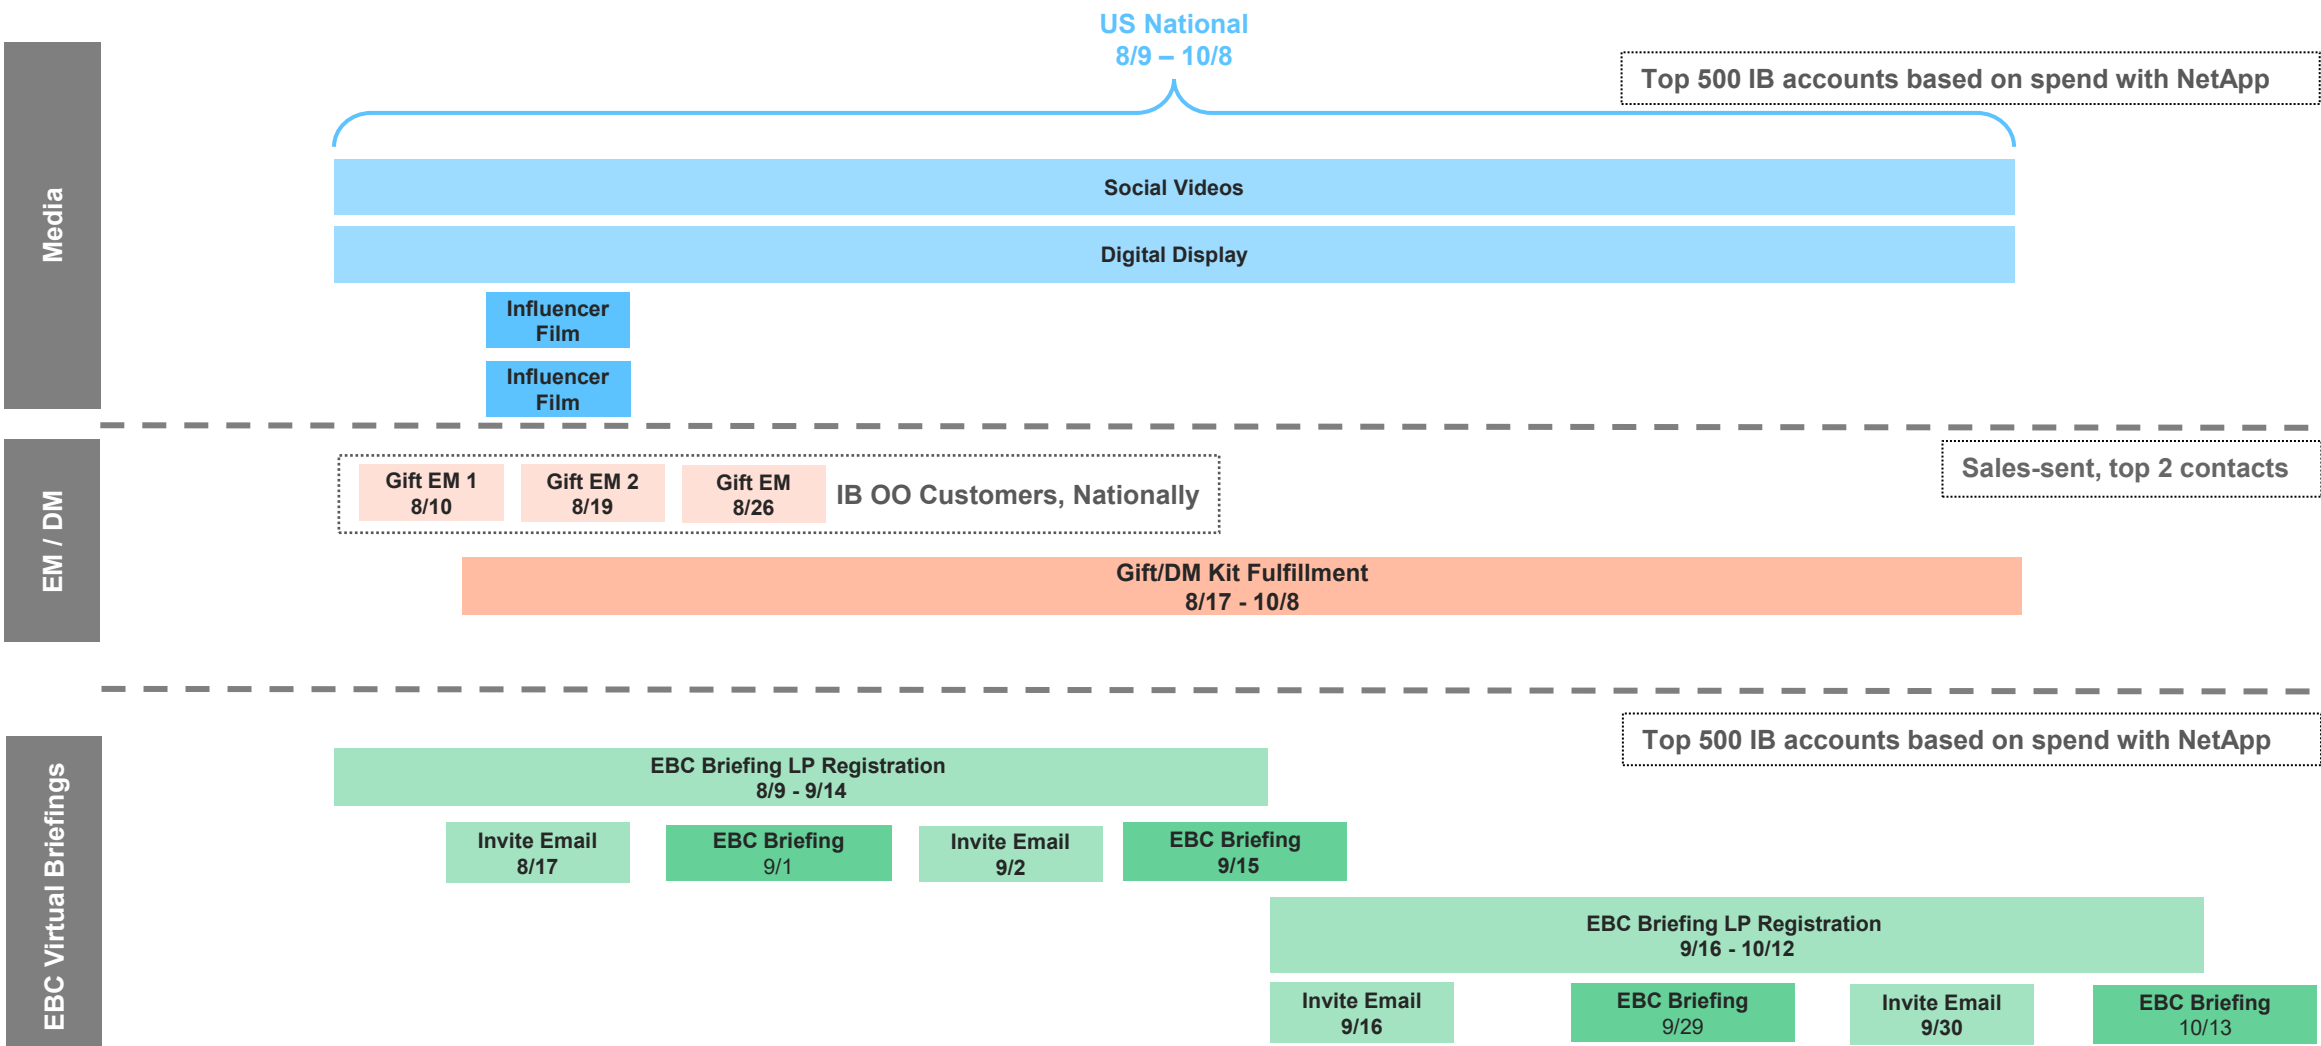

Virtual events conducted with customer attendees

■ Marketing driven
■ Field Activated

AUTOMATION & WRAP-UP

Automation topics...

A brew master explains each beer and ties it to upcoming topic

Protecting against ransomware

Simply integrated to protect

 Detect	 Protect	 Recover
 File level (Cloud Data Sense)		
Identify sensitive data stored and whether it is exposed	Optimize permissions for strong data protection posture	Identify what sensitive data was compromised
 User level (Cloud Insights)		
- Identify user file access patterns - Detect user anomalies	- Initiate NetApp Snapshot™ recovery point. - Block malicious accounts.	Review file audit logs for forensics and to identify which files to restore.
 Infrastructure level (ONTAP)		
- Set alerts for anomalous storage indicators. - Approve or exclude file extensions with NetApp FPolicy.	- Schedule frequent Snapshot copies to minimize data loss. - Protect against malicious attacks with immutable Snapshot copies and available SnapLock™ WORM retention.	- Get file audit with remote syslog for tamperproof file logging. - Restore petabytes in seconds from clean Snapshot (local or remote) copies. - Use NetApp FlexClone® technology for granular file restore.

Phase 2 Promotion Video

Series of 4-6 one-minute videos running on Cloud and Core Awareness pages with cut-downs for social.

Videos will raise unconsidered needs that can be addressed by deploying a common data architecture using ONTAP.

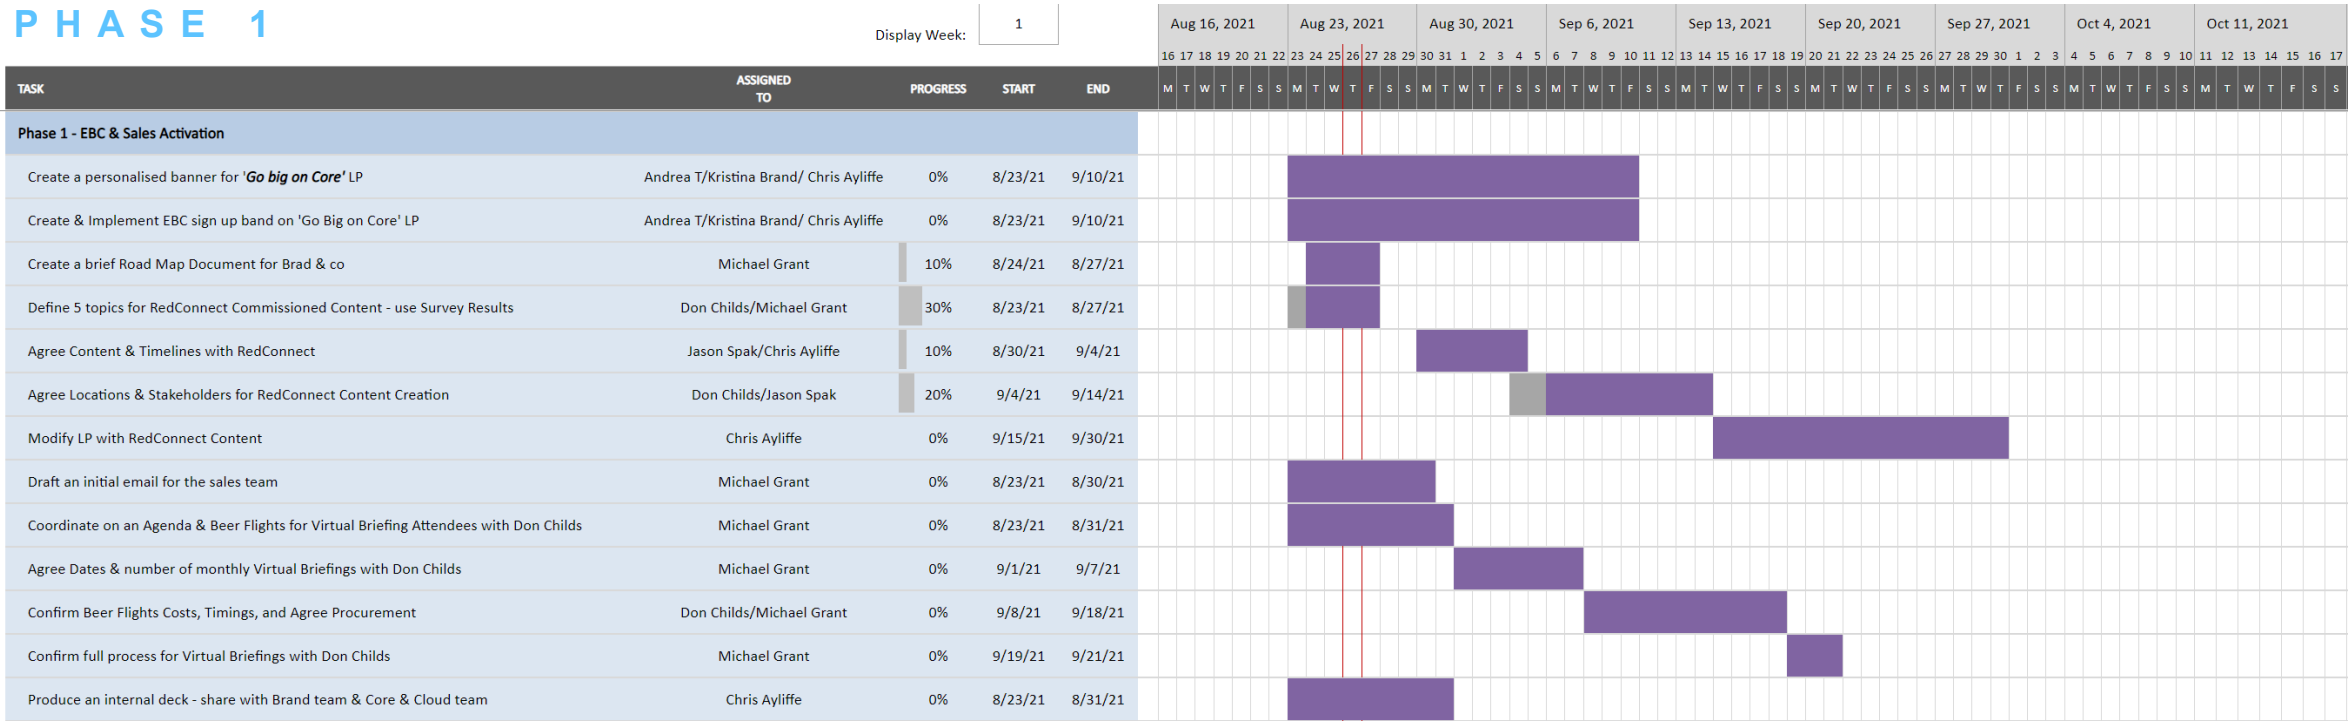

Scene	##	Scene Description
		Data Protection Simple Story Board designed to create a reason to buy.
Shot:	01	ACTION Opens on NetApp expert that quickly relays the problem DIALOGUE Expert intros topic using a provocative industry fact and ties it to an extreme cost or risk FX Briefing center background
		You should expect a 7X increase in ransomware attacks over the next few years By 2025, at least 75% of IT organizations will face one or more ransomware attacks Ransomware remediation costs globally rose from an average of \$761,106 in 2020
Shot:	02	ACTION Graphics with voice over set up problem and intro NetApp DIALOGUE - Traditional approaches can't keep pace - However, NetApp does data protection differently FX Colorful graphics animated to make key points
		Data protection challenges Traditional approaches to data protection can't keep pace with the growing complexity of IT Time Cost Risk Data growth puts added strain on backup and recovery NetApp does data protection differently.
Shot:	03	ACTION Short video clip from EBC that provides 5-10 sec advice as tease DIALOGUE From video FX Clip faded in so its obvious it's a clip but not distracting
		NetApp Snapshot and Replication Technology Traditional DP vs. NetApp DP Performance Impact Data Protection Time and Efficiency Foundational technology for your data fabric NetApp intelligent data services deliver transformational value Efficient copy to disk, object, or cloud One-click enablement of intelligent cloud data services Simplified data protection through automation Application integrated protection Data fabric
Shot:	04	ACTION NetApp SME returns on screen to close clip with CTA DIALOGUE If you could be bullet proof AND save hundreds of thousands this year, would you? Let's talk FX Put CTA at bottom of video clip that leads to resources
		Executive Briefing Center Solution Series by NetApp Learn how NetApp can help you protect your data and simplify your backup and recovery process Key benefits include: - Reduced backup and recovery time - Increased backup and recovery efficiency - Reduced backup and recovery cost - Increased backup and recovery reliability NetApp does data protection differently.
